

ATTENTION: Infertility Patients & Infertility Testing

If you are a patient and are being seen by our physicians for infertility problems or problems conceiving, this visit could warrant testing that could possibly not be covered by your insurance. You will be asked to pay for your visit in advance of seeing the physician. If your claim is covered by your insurance, you will be reimbursed 30 days after insurance has paid your claim less any co-insurance, deductibles, or co-pays.

Please sign below to acknowledge prior disclosure of this notice to pay.
